

New school calls on PTSG for specialist solutions

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist fire solutions at a new special school in Cambridgeshire.

The new £30m Prestley Wood Academy is a Special Educational Needs & Disabilities (SEND) School that will be located at the heart of the Alconbury Weald development in Huntingdon.

Prestley Wood Academy will cater for 150 pupils aged between 3-19 years. The school will form part of the Alconbury Weald Education Campus that will see the addition of a new Secondary School in future phases.

The design of the school has been determined through extensive engagement with Cambridgeshire County Council and Horizons Education Trust, to provide a facility which responds to the Council's Nearly Zero Energy Building (NZEB) policy.

In this contract, engineers from [PTSG Fire Solutions Ltd](#) will install a sprinkler system throughout the school to provide safety in the event of a fire. PTSG is one of the leading providers of sprinkler systems, with services including design, installation, testing and inspection and the maintenance of sprinklers. Its Fire Solutions division also delivers a range of other solutions including (but not limited to) dry and wet riser installation and maintenance, security systems and passive fire solutions.
