

PTSG's specialist services on display in north-west

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to provide specialist services at a number of public museums and art galleries in the north-west.

In total, the collections comprise over one million objects and works of art spanning a hugely diverse range of topics and eras. As well as exhibiting to the public six days each week with free admission, the venues also hold course, activities and event and provide educational workshops and activities for children, young people and adults.

In this contract, engineers from PTSG Building Access Specialists Ltd will deliver a range of maintenance work to the gallery and museum buildings. The works will help to preserve their structural integrity and keep them clean and presented to a high level for the public.

PTSG Building Access Specialists Ltd delivers a comprehensive range of services for planned and reactive building maintenance projects throughout the UK, for some of the nation's best-known organisations. The types of work undertaken daily are:

- Roof Maintenance including repairs, replacements and cleaning
- Roof Surveys
- Gutter Maintenance
- Siphonic Drainage Systems
- Glazing Repair / replacement
- Glazing Surveys
- Lighting Repair / Maintenance

- Man-Safe Testing / Installation
- Window Cleaning
- Cladding Cleaning
- Graffiti Removal
