

Saltire extends relationship with Fife Housing Group with year-long installations contract award

2 years ago

[Saltire Facilities Management](#) is set to continue its working partnership with Fife-based housing association, Fife Housing Group following the award of a year-long boiler installation contract.

Bellshill-headquartered Saltire Facilities Management currently provide central heating, electrical, and renewable heating services to dozens of local authorities and social landlords across Scotland and in the Midlands region of England, serving almost 70,000 homes.

Dunfermline-based Fife Housing Group has grown to over 2,500 properties under management, spread across the Kingdom of Fife and Perth. The association develops and builds sustainable communities, supporting its tenants through their tenancy.

Speaking of the Fife Housing Group contract award Saltire Managing Director, Alan Murray commented; "We are delighted to continue working with Fife Housing Group, our teams work exceptionally well together, aligning on our shared vision to build sustainable communities. Our installations team have a strong reputation in the sector and I am proud of the team for continuing to provide a first class service."
