Jason Stapley, Chief Procurement Officer at Pagabo, said: “We’re always looking to respond to the needs of our clients and connect them with the best and most suitable suppliers in the market such as Tilbury Douglas, which is exactly what our new M&E framework will achieve. We’re looking forward to working with Tilbury Douglas and seeing the range of work procured through this framework and the support in which it will give to many types of organisation.”

Ross Mather, Managing Director for our Engineering business, shared, “Our appointment to the Pagabo M&E Solutions Framework compliments our capabilities as a principal contractor, delivering in specialist markets direct for strategic clients. We’ve invested expertise across our customers’ estates and we’re very much looking forward to working with Pagabo in developing and promoting framework opportunities together.”

Tilbury Douglas is already a partner on the [Pagabo Medium Works Framework](#), a four-year framework operating from January 2023 to January 2027, and the [Pagabo Refit and Refurbishment Framework](#), which went live in May 2023.
