

BELGRAVE HOUSE CONTRACT RENEWAL SUCCESS

2 years ago

We are delighted to announce that we have resecured the hard services contract at Belgrave House, located moments away from Buckingham Palace in Victoria.

The prestigious building provides 286,000 ft² of office space over eight floors and has a unique open terrace and a winter garden on the fifth floor.

Sid Newbon, Business Unit Head, commented:

“Belgrave House and [Jaguar](#) have had a long-standing partnership over the past several years. We have provided M&E services for 3 years now and have assisted with a number of complex projects throughout the building. We look forward to continuing the relationship.”
