

## General manager appointed to boost senior team

3 years ago

Building technology solutions provider [Taconova UK](#) has strengthened its senior leadership team with the appointment of Behfar Abedinia as general manager.

He will lead the UK team as it continues to champion the adoption of sustainable heating technologies, offer comfort solutions, and support customers in their drive to reduce carbon emissions.

With distinguished roles at large organisations such as EDF, SSE, and E.ON, Mr Abedinia has a proven-track record of navigating intricate regulatory environments. By establishing collaborations with industry stakeholders, regulatory agencies, and government departments he has previously secured funding for energy efficiency initiatives, particularly those backed by government schemes.

According to the announcement, his understanding of heat network technologies will fortify the company's commitment to delivering sustainable, cost-effective metering and billing solutions.

"We're thrilled to welcome Behfar to the Taconova UK team," said managing director Ralph Seewald. "With over two decades of deep-rooted experience in energy efficiency, Behfar's expertise is an invaluable addition to Taconova UK."
