

MOUNTJOY SECURES £385K CONTRACT FOR REFURBISHMENT OF PUBLIC CONVENIENCES IN WORTHING

3 years ago

[Mountjoy](#) has recently secured a £385k contract for reconfiguration and refurbishment works for the existing public conveniences located within the High Street Multi-Storey car park in Worthing, on behalf of Worthing Borough Council.

Works on the project will involve reconfiguring and refurbishing the current layout of the existing public conveniences to include Unisex and Accessible facilities, as well as brand new changing places.

The building will remain in use throughout the works, with unaffected areas remaining open to the public, and so careful logistical planning will be implemented throughout to ensure the safety of all building users.

Works will begin on site in October and are expected to complete in January 2023.
