

PTSG books in at Thoresby Hall Hotel

2 years ago

[Premier Technical Services Group Ltd](#) (PTSG) has completed a contract to deliver specialist electrical services at one of the Midlands' finest hotels.

Thoresby Hall is a grade I listed 19th-century country house in Budby, Nottinghamshire, some 2 miles (4 km) north of Ollerton. It is one of four neighbouring country houses and estates in the Dukeries in north Nottinghamshire all occupied by dukes at one time during their history. One of Nottinghamshire's most important houses, Thoresby's original features are still enjoyed by guests today. There are deep armchairs in the vaulted splendour of the Great Hall, and the house's broad terrace overlooks a croquet lawn and acres of classic parkland. The rooms vary from historic sumptuous four-posters to our simpler standard rooms. There's a wide range of activities available, including falconry, and live music every night.

In this contract, engineers from [PTSG Electrical Services Ltd](#) carried out an annual test of the lightning protection system in place at the historic hotel. The contract is with Bourne Leisure.

PTSG is the UK's leading provider of lightning protections services. Its teams deliver a design and installation service for lightning and surge protection systems as well as test, inspection and maintenance to ensure systems remain compliant and fully operational.
