

Tilbury Douglas strengthens its Regional Building team in the South

2 years ago

Tilbury Douglas, a leading UK building, infrastructure, engineering and fit-out business, has announced the promotion of Dean Lee to Framework Director for the South and the appointment of Steve Hearn as Regional Director for the South East.

With extensive experience in the construction industry, Dean was most recently Regional Operations Director at Tilbury Douglas and played a pivotal role in securing a place on the Southern Construction Framework (SCF).

Joining Tilbury Douglas, having previously worked for a number of tier one contractors at a senior level, Steve has nearly 25 years of experience, particularly in building, fit-out, refurbishment and Modern Methods of Construction in London and the South East.

Richard Boeg, Managing Director – Building South at Tilbury Douglas, said: “With extensive knowledge, having been with Tilbury Douglas for several years, it is great to see Dean promoted to the role of Framework Director – becoming our strategic operational lead for the SCF and other regional frameworks in the South.

“We also welcome Steve to the business, bringing with him a strong background in leading operational and commercial teams. I am confident that he will continue to develop and grow the region.”
