

MOUNTJOY SECURE PLACE ON CONSTRUCTION FRAMEWORK

2 years ago

We are delighted to announce that Mountjoy have been awarded a place on the Hampshire County Council ICF3 construction framework. Starting later this month, the framework will see us deliver projects with values ranging from £800k to £6.5 million in partnership with Hampshire County Council over the next 4 years.

This is strategically important to Mountjoy in underpinning our continued success and future growth and we can't wait to start working with the team at Hampshire.

We would be interested in hearing from all areas of the construction supply chain who would be interested in working with us in delivering projects through the framework – please contact enquiries@mountjoy.co.uk
