

PAS 2080 Roadshows hosted

1 year ago

In recent weeks, plumbers' merchant [Graham](#) has reported its Environmental Sustainability team hosted PAS 2080 roadshows across its sites and offices to educate its teams on the standard and the wider benefits of effective carbon management.

The team delved into the significant challenge that reducing emissions on projects poses, alongside discussion of exciting new opportunities to deliver further carbon reductions.

The company also launched its [#mypledgeis](#) initiative and reported it is encouraging all colleagues and the company's wider supply chain to join it in taking actions of their own as part of the urgent need to avoid the worst impacts of the climate crisis.
