

PTSG helps protect Staffordshire stately home

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a project to provide specialist electrical services at Shugborough Mansion & Parkland.

Known locally as Shugborough Hall, this magnificent stately home is located near Great Haywood in Staffordshire, on the edge of Cannock Chase. Management of the estate was passed over to the National Trust in 2016. It is open to the public and comprises the hall, museum, kitchen garden and a model farm.

Since 2011 the private apartments have housed an exhibition of the work of Patrick Lichfield. His cameras and lighting gear have been set up in a recreation of his studio, and there is a gallery of some of his most famous photographic subjects.

In this contract, engineers from [PTSG Electrical Services Ltd](#) completed a test and inspection of the lightning protection system at the estate. PTSG's electrical engineers installed the system a number of years ago and have been maintaining it on a regular basis ever since.
