

PTSG to work on world-first energy facility

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to provide specialist electrical services for Altrad.

Altrad describes itself as the critical human infrastructure that enhances the lives of millions, by the value-adding solutions it provides in support of the nation's vital assets. Altrad aspires to be the most trusted and valued support services company – learning from the ingenuity of its 10,000 people in the UK & Ireland, to deliver extraordinary outcomes for its clients.

In a world-first green hydrogen project, Altrad Babcock has been selected as the main works contractor for a hydrogen gas network project in Fife, Scotland. The project, known as H100 Fife, will provide green hydrogen for up to 300 homes in Levenmouth, on the east coast of Fife.

In the contract between PTSG and Altrad, engineers from [PTSG Electrical Services Ltd](#) will design, supply, install, test and commission site-wide power earthing, lightning protection and surge protection systems.

PTSG is the UK's leading provider of lightning protection services. In addition to designing and installing bespoke systems, PTSG also carries out testing and inspection and maintenance work to ensure systems are operationally efficient and continue to comply with regulations.
