

Reddot Security joins the Precision Group of Companies

2 years ago

In a strategic move designed to enhance the company's position as a leading FM provider, [Precision FM](#) has announced that Reddot Security has joined the Precision Group of Companies.

The collaboration not only amplifies Precision's capabilities in the security sector but also significantly extends its self-delivery capacity further increasing the FM services the company will be able to offer to its customers.

As part of this expansion, Daniel Enachi from Reddot will be assuming the role of Director of Security Operations within the Precision Group, bringing a wealth of experience and leadership to the team, the joint venture will also increase the Group's size by an additional 50 people.

With a combined portfolio that includes everything from cleaning and maintenance to advanced security services, the Precision Group is now better equipped to meet the increasingly complex needs of both existing and prospective clients.

Commenting on joining the Precision Group, Daniel Enachi says: "The collaboration between Precision Group and Reddot Security represents a mutual commitment to sharing expertise and resources. Both companies have a history of maintaining high standards of professionalism and are well-regarded for their innovative, tailored solutions.

"I am looking forward to leading the security division at the Precision Group; it's exciting times as we aim to provide a more comprehensive and better-aligned service offering, enhancing value for existing clients and attracting new business."

Brij Thankey, CEO at Precision FM comments: “We are pleased to welcome Reddot Security into the Precision family. We’ve long respected the Reddot team’s expertise in the security field and I know that our new colleagues will continue to bring the excellent, bespoke security services for which they are known.

“Operationally, Daniel will help advise on security tenders and new business opportunities, whilst our current level of security maintenance will initially be provided through Reddot, over time, we aim to promote Precision Reddot Security right across our existing customer base.”
