Paul Spiller joins McLaren Construction as Group Commercial Director

2 years ago

McLaren Construction would like to welcome Paul Spiller as Group Commercial Director.

Paul brings to McLaren a wealth of experience from his previous role as Commercial Director in an £850m revenue business.

The addition of Paul to McLaren builds upon our success in delivering public and private sector projects through repeat business and frameworks across Major Projects, London and South, Midlands and North and the UAE divisions.

Paul joins McLaren on 1st November. The appointment follows our continued success, with revenue predicted to exceed £1bn in 2023.

Group commercial director of McLaren Construction, Paul Spiller, says, "Joining such a professional and resilient business, one of the largest private companies in the UK, brings huge opportunity. I am delighted to contribute to such a strong team and be part of McLaren's journey in exceeding client expectations, expanding in new and existing sectors, and future-proofing the business in response to new legislation, up-skilling and embracing new technologies."

Group managing director of McLaren Construction, Paul Heather, adds, "By joining McLaren as part of the main board, Paul brings a wealth of experience and relationships from across the UK construction industry with both customers and the supply chain, providing excellent strategic insight into new markets and sectors. Paul is a great addition to the team and will contribute to the growth of McLaren over the coming

years as we develop agile ways of working and will be key to unlocking opportunities for McLaren in our target sectors, while building our long-term resilience."

Chairman of McLaren Construction, Kevin Taylor, comments, "I welcome Paul to the business and look forward to working with him to support our strategic growth plan, exploring opportunities in new

markets and enhancing our position in existing sectors. I am sure Paul will complement the excellent McLaren team and contribute to our continued success."
