

PTSG collaborates with German manufacturer for BMU installation

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a contract to deliver specialist Access & Safety services for a building, working in close collaboration with a German manufacturer.

OTTE Aufzugstechnik GmbH, located in Spenge Germany, has been in the business of designing and manufacturing world-class façade access systems for over 40 years. Since its inception as a family business, the company has expanded through Europe, the Middle East and Asia via a network of successful agents.

PTSG has worked closely with OTTE to facilitate the successful delivery of a machine to provide the full access needs of its building and client. The client was very impressed with the equipment and final factory testing following a visit to the manufacturer. The building maintenance unit (BMU) was subsequently delivered to the site where PTSG's engineers removed the old unit and replaced it with the new one.

[PTSG Access & Safety Ltd](#) is the original business division of the Group. In addition to the installation, testing and inspection of building access systems, PTSG is also the UK's leading installer of fall arrest and fall protection products, delivering solutions for customers in all kinds of industry sectors.
