

PTSG puts down its anchor in Port Street

1 year ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has secured a contract to deliver specialist fire solutions services at an exclusive residential neighbourhood under construction in Manchester's iconic Northern Quarter.

Port Street has been described as Manchester's most desired development for the near future. The landmark purpose-built development within Select Property's Prestige Collection pushes the boundaries of resident experience. The first-class amenities include a 2,000 square-foot swimming pool, seventh-floor club lounge and a grand lobby with a 360° fireplace.

In this contract, which is a continued partnership between PTSG and Renaker, engineers from [PTSG Fire Solutions Ltd](#) will install a sprinkler system to keep residents as safe as possible in the event of a fire.

Residential sprinkler systems are the most effective means of life and property protection available. Fire sprinkler protection is required in all kinds of buildings: schools, office buildings, theatres, and it's crucial in the most susceptible place to fire - homes.
