

PTSG treats water at historic swimming club

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#), via constituent company HCS Water Treatment, is supporting Glasgow's Arlington Baths Club with water treatment services.

Arlington Baths Club is a non-profit member-run swimming club in Glasgow. The historic club was the first swimming club in Glasgow and is located in a purpose-built Category A Listed Building that opened on 1 August 1871.

In 1902, the club added a third and final extension to the street frontage of Burnet's original building. This did not extend the pool hall itself, but simply the bank of rooms which lay between the pool hall and the street.

In this contract, the team of specialists from [PTSG Water Treatment Ltd](#) will deliver water treatment services, which will help safeguard the safety of users.

PTSG is a premium provider of Legionella control and management of water systems; its team delivers services for customers in all industry sectors.

PTSG Water Treatment Ltd is one of five independent business divisions at PTSG. The others are PTSG Access & Safety Ltd, PTSG Electrical Services Ltd, PTSG Building Access Specialists Ltd and PTSG Fire Solutions Ltd. Each division operates as a separate entity or can combine to deliver multiple specialist services – often meeting customers' complete requirements.
