

SAEMA: Revolutionising Access Industry Training

3 years ago

The [Specialist Access Engineering and Maintenance Association \(SAEMA\)](#), the UK's premier trade body for the permanent and temporary façade access equipment industry, is improving safety across the industry through its cutting-edge, online training platform.

SAEMA's unwavering commitment to safety and the elevation of industry standards has culminated in a comprehensive and engaging online training system that delivers substantial benefits to individuals and their employers.

A Unique, Simple, Powerful and Trusted Platform

SAEMA recognises the importance of equipping professionals with the knowledge and skills necessary to ensure safe access to buildings and structures. The association's online training system offers a unique and cost-effective solution, with the aim of raising standards and promoting safe practices within the sector.

Designed for industry veterans, newcomers, and anyone interested in the field, SAEMA's online e-learning suite features ten visually engaging videos, packed with industry-leading practices and inspiration. Learners will be guided through topics such as Terminology, Documentation, Legislation, as well as pre-site arrival and on-site procedures. The training concludes with an innovative multiple-choice test system, and successful learners will receive certificates of competence.

This certification demonstrates a strong grasp of permanent and temporary access work, providing advantages to both current and prospective employers. Certified employees play a key role in improving workplace safety by reducing the risk of accidents and injuries, which leads to positive outcomes for the

entire organisation.

SAEMA's online training system empowers professionals with the knowledge and skills required to work safely in a high-risk environment and provides a competitive edge in the job market.

For those interested, this invaluable training is available at a cost of £75 per person. Vouchers can be conveniently purchased through any SAEMA member or via the provided link. Don't miss this opportunity to enhance your skills, promote safety, and make strides in the access industry.
