The Access Group celebrates a hat-trick of award wins

2 years ago

[The Access Group](#) received a hat-trick of award wins at the UK Business Tech Awards, UK IT Industry Awards and UK Tech Awards 2023 this week.

The business management software company, with its HQ in Loughborough, Leicestershire, won three of the categories it was shortlisted for including Tech Company of the Year, Vendor of the Year and Tech Company of the Year (Large).

The Access Group, which is one of the UK's largest providers of business management software, has recently expanded globally, opening two new Global Operation Centres (GO Centres) in Timisoara, Romania, and Kuala Lumpur, Malaysia.

Commenting on the award success, Chris Bayne, CEO of The Access Group, said:

"We've had a very successful year across all divisions at The Access Group, and with our expansion across Europe and Asia, winning these three accolades is recognition of how hard our teams have worked.

"The awards are confirmation of how our teams have continued to develop and grow throughout 2023. We're very proud of all the hard work and dedication everyone has shown to make Access the company it is today, and we are delighted to be acknowledged by the judging panels of these prestigious awards."

The Access Group is hoping for further award success this month at the Growing Business Awards where it is shortlisted for 'Growing Business of the Year: Turnover £60m+' and 'Technology Business of the Year'.
