

Equans named on CCS framework for Postal Services and Solutions

2 years ago

[Equans](#), has been named as a supplier on a new framework for Crown Commercial Service (CCS).

The CCS RM6280 Postal Services and Solutions Framework provides the public sector with a range of postal services. Equans has been awarded a place on Lot 7, Inbound Delivery, Mail Opening and Digital Scanning Services.

Services offered through Lot 7 include traditional postal goods and services, including inbound delivery, mail opening, archiving and digital scanning services.

Scott Birch, Regional Managing Director at Equans UK & Ireland, commented: “We are delighted to have secured a place on this framework and look forward to working with CCS and other public sector organisations to deliver their postal requirements and transform their mailroom environments.

“Our expertise in delivering document management and business process services can support smarter working, and through our integrated FM offering we are able to combine the most relevant services, support and technology from our suite of resources to further support public sector customers embrace a more sustainable and digitalised future.”

CCS supports the public sector to achieve maximum commercial value when procuring common goods and services. In 2022/23, CCS helped the public sector to achieve commercial benefits equal to £3.8 billion – supporting world-class public services that offer best value for taxpayers.

At Equans, we deliver smarter sustainable FM which will help CCS customers enhance their operations and accelerate their digital transition. We provide a range of solutions that introduce new technologies and

innovations, and that will deliver significant efficiencies, resource savings and cost reductions.
