

PTSG is BAFE certified for dry riser maintenance

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#), via constituent company UK Dry Risers (Maintenance) Ltd, has become BAFE accredited for delivering servicing and repairs to dry riser systems.

The BAFE scheme delivers independent evidence that providers such as PTSG are competent to deliver quality service and maintenance works for customers' dry riser or wet riser/falling installations.

[PTSG Fire Solutions Ltd](#) delivers dry and wet riser installation, servicing and maintenance as part of an overall portfolio of fire prevention and suppression services, plus a full security provision.

PTSG comprises five independent business divisions: PTSG Access & Safety Ltd, [PTSG Electrical Services Ltd](#), PTSG Building Access Specialists Ltd, PTSG Fire Solutions Ltd and PTSG Water Treatment Ltd. The Group holds over 250 individual accreditations and certifications covering all five divisions. All PTSG engineers undergo highly specialized training and qualification, ensuring customers have confidence that each engineer plays a crucial role in keeping buildings across all industry sectors safe, secure, and clean.
