

PTSG to work at Thameside development

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist electrical services at a major new residential development in South East London.

Greenwich Peninsula's masterplan will eventually see more than 17,000 new homes in South East London. PTSG is involved in Plots 18.02 and 18.03 which, together, will deliver 475 new homes. This particular development will comprise two towers of 22 and 30 storeys, two mansion blocks and 17 four-bedroom townhouses suitable for larger families.

Homes are mixed tenure, comprising 60% affordable housing (split equally between London Affordable Rent and Shared Ownership homes), and 40% market sale homes. Plots 18.02 + 18.03 will be the first homes in the new Brickfields Neighbourhood, setting a high benchmark for the transformation of the wider area.

Engineers from [PTSG Electrical Services Ltd](#) will deliver lightning protection to protect the new structures and all users in the event of an electrical storm.

PTSG's constituent company, JW Gray, has been operating since 1835. It is believed to be the oldest trading provider of lightning protection services in the UK, possibly even Europe. PTSG Electrical Services Ltd also delivers test and inspection, maintenance and repair services in addition to the design and installation of new lightning and surge protection systems.
