

## JLL appoints Suketu Shah as Head of Life Science within its Property Asset Management (PAM) business

1 year ago

**JLL** has appointed Suketu Shah as the new Head of Life Science for PAM (Property Asset Management). In his role, Suketu will further strengthen the company's position as a UK leader in providing exceptional life science property management services, focusing on driving business development initiatives, enhancing client relationships, and ensuring exemplary service delivery.

Suketu brings with him an impressive track record of 14 years in growing like-minded communities, fostering collaboration, and driving innovation and research in multiple buildings. Shah has been instrumental in expanding companies both nationally and internationally, demonstrating his ability to navigate diverse markets and capitalise on growth opportunities. In his previous role as Director of Nottingham assets at We Are Pioneer Group, Suketu demonstrated exceptional leadership in overseeing the management of 300,000 sq ft of labs and office space across five buildings. He successfully increased occupancy levels by over 85% and provided a dynamic work environment and ecosystem for over 100 companies.

With Suketu's strategic vision and extensive experience in growing vibrant life science communities, JLL is well-positioned to further strengthen its Life Science portfolio.

Colin Curnow, Head of Consulting – Property & Asset Management at JLL said, "We are excited to welcome Suketu to the JLL team. His strategic mindset, commercial acumen, and extensive experience in the life sciences sector make him the ideal candidate to lead our Life Science property management initiatives. We are confident that Suketu will contribute significantly to further expanding our Life Sciences portfolio."

Suteku Shah, Head of Life Science for PAM added, "JLL's commitment to the life science industry aligns with my passion for growing vibrant communities, fostering collaboration, and driving innovation. I am excited to leverage my experience and expertise to further enhance JLL's Life Science portfolio and provide exceptional property management services. I look forward to working with the talented team at JLL and contributing to the growth and success of the company."
