

JLL's Property Asset Management (PAM) team receives 81 Green Apple Awards

1 year ago

JLL's PAM team has secured 81 Green Apple Awards across their managed portfolio, with 12 of those being gold, 43 silver and 22 Bronze. In addition, the team received commendations for 26 initiatives.

The team also achieved three Green Champion awards, which are awarded to a maximum of one winner in each sector and category. These were awarded to St Mark's Shopping Centre for their 'reuse' project, to Friars Walk for their Summer Garden and Midas for Vitner House and their sector leading biodiversity programme and improvements.

As a result of accomplishments in the previous year's awards, the JLL team were honoured to take part in the ceremony, presenting hundreds of awards to winners, across four sessions.

The Green Apple Environment Awards, established by The Green Organisation in 1994, have become one of the most prestigious and internationally recognised environmental award initiatives worldwide. The annual event attracts submissions from governments, ministries, regional authorities, companies, and communities across the private and public sectors, with the aim of recognizing, rewarding, and promoting environmental best practices.

JLL's PAM team enters the awards annually for recognition of sustainability initiatives driven in properties managed across their portfolio.

Jordan Jeffery, Head of Property & Asset Management at JLL said, "We're proud to have been recognised for our sustainable approach to property management, which is core to everything we do. Congratulations to everyone involved, particularly to the teams who secured the highly coveted Green Champion awards. This achievement is testament to the dedication of our site teams to achieve environmental excellence."
