

## PTSG completes project at hazardous waste facility

1 year ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a specialist electrical services contract for Tradebe for the company's high temperature incineration plant in Fawley, Hampshire.

Tradebe is an international leader in waste reclamation and recycling solutions managing more than two million tons of waste annually, recycling 60% of that waste. The company provides sustainable, innovative and quality solutions that contribute to improving the environment.

Tradebe owns and operates the commercial high temperature incinerator at Fawley. At a temperature of 1,000C, it can guarantee complete destruction of hazardous waste resulting in inert residues with typical volume reductions of 80%. This provides peace of mind to utility companies, chemical, pharmaceutical and manufacturing industries, academic and research institutes and the oil and gas industry that require finite destruction of their waste products.

In this contract, engineers from [PTSG Electrical Services Ltd](#) delivered an upgrade and remedial works to the power earthing system in place at the incineration plant in Fawley.

PTSG Electrical Services Ltd. is one of the Group's five independent business divisions. It combines the talent and experience of some of the UK's leading practitioners in their field.
