

Artic wins new contract

1 year ago

The logo for Hawkins\Brown is displayed in white text on a solid pink rectangular background. The text is arranged in two lines: "Hawkins\" on the top line and "Brown" on the bottom line, with a backslash character between the two words.

Artic Building Services is pleased to announce its latest HVAC maintenance contract win with [Hawkins\Brown](#), a global architecture and design firm with a significant presence in London.

This partnership is a noteworthy stride in the firm's ongoing commitment to providing exceptional [Hard Facilities Management](#) (Hard FM) services.

Nestled in the vibrant heart of London, Hawkins\Brown stands as a distinguished leader in architecture, urban planning, and interior design. With offices spanning the UK and America, the firm is recognised for its specialised services, including briefing and estates optimisation. Hawkins\Brown's dedication to [sustainability](#) and innovation aligns seamlessly with Artic's commitment to excellence in Facilities Management.

Located at the heart of Clerkenwell's design district, Artic will oversee the HVAC, MEP, AHU and [compliance](#) services. Its dedicated [team](#), including a skilled Artic engineer conducting weekly planned preventive maintenance (PPM) tasks, ensures the continuous optimal functionality of the building.

Artic's tailored Hard FM services aim to enhance efficiency and sustainability discreetly. Hawkins\Brown will furthermore have access to its CAFM system which will ensure transparency and efficient communication throughout our partnership.
