

Reliance High-Tech announces two more of its popular technology seminars

2 years ago

[Reliance High-Tech](#), a leading independent security technology integrator, has announced two free to attend seminars for security users who want to understand how cloud can transform their systems and deliver 'value beyond security'.

These 'ticket only' events will provide attendees with a unique opportunity to learn about the latest advancements in cloud-based video surveillance, access control, and the transformative power of AI in security.

Reliance High-Tech will present their expertise in integrating Cloud services, and will be joined by two of their technology partners, who will present a range of topics in dedicated executive briefings:

Cloud security expert, [Eagle Eye Networks](#) will demonstrate their unique perspective and strategic approach to advancing security technology in an increasingly connected world, whilst cloud-based access control specialists, [Brivo](#), will present results of their efforts in integrating cutting-edge technology and how they are shaping the landscape of digital access management in an ever-evolving digital world.

The first event, on 14 March at Moorgate in London, starts at 13:00 hrs with presentations, and culminates with virtual clay pigeon shooting. The second event, on 21 March, at the National Football Museum in Manchester, has a 14:00 hrs start time, and Reliance has organised a private tour of the museum for all participants.

Reliance High-Tech's CEO, Alistair Enser, will host the day alongside CTO, Andy Schofield, and will be available to answer questions regarding the security industry's transition to cloud and accelerating use of AI; as well as orchestrate opportunities for attendees to network with the guest experts and peers.

The event is open to End-Users and Security Consultants, with delegate numbers strictly limited via pre-registered ticket only. To request a ticket, or to obtain further details of the full agenda and speaker list, please register your interest for your chosen event at: <https://events.reliancehightech.co.uk/events>.
