

## Significant contract win with Landsec

1 year ago

Jaguar Building Services is thrilled to announce that following a competitive tender process for the Landsec Workplace Portfolio, it has retained its Nova Portfolio agreements and been awarded six additional building services, fabric, and energy performance (BSFEP) contracts.

The company's focus will be on delivering a high-quality, responsive service, allowing it to maintain and improve existing accreditations. This has contributed to the environmental goals of the client, including their net zero and carbon reduction targets. The newly acquired sites include:

- 80-100 Victoria Street
- 123 Victoria Street
- 62 Buckingham Gate
- 16 Palace Street
- Zigzag Building and Estate
- Cardinal Estate

Rhona Smith, Associate Director, Business Development, said: "This achievement is a testament to our hard work, dedication, and commitment to quality. What makes this win even more special is knowing that our existing Landsec site teams have set a high standard and this success is a direct reflection of the positive reputation they have helped build. Our heartfelt thanks to Landsec for their continued partnership, support, and trust in our capabilities"
