

Tivoli to deliver grounds maintenance services for Yorkshire Housing

2 years ago

Tivoli Group Ltd has been awarded Yorkshire Housing's Grounds Maintenance & Associated Services contract for their whole estate, circa 300 sites, covering external grounds across Yorkshire including East, West and South.

The contract, which will run for an initial period of 24 months from 1st April 2024 with a possible 2 x 12-month extensions, includes grass mowing, planted bed maintenance, hedge pruning, weed management, litter and debris removal and disposal, and other ad-hoc works.

Yorkshire Housing is the biggest housing association based solely in Yorkshire. They own and manage around 20,000 homes across the region, including older person's accommodation and homes for low-cost rent (social and affordable homes).

The key strengths of Tivoli's bid included the ability to deliver significant social value and local supply chain expertise, and an innovative and commercialised approach. The company, which has a proven track record in managing similar Housing Association contracts across the UK, has pledged to make significant investment in improving green spaces across the estate whilst delivering a high-quality service and driving continuous improvement, working in partnership with Yorkshire Housing to develop a strong and trusting relationship.

Robert Agar, Environmental and Estates Service Manager at Yorkshire Housing, said:

“We’re looking forward to working with Tivoli. Their experience and knowledge will help us to continue to provide our customers with places they’re proud to call home.”

Alex McLauchlan, Tivoli’s Regional Director, said:

“It’s great news that Tivoli has been awarded the Grounds Maintenance contract with Yorkshire Housing. We are dedicated to providing a cost-effective service, whilst also committing to significant investment to meet the future requirements of residents and visitors and protect and regenerate the environment. This investment will deliver some exciting projects, and our teams look forward to delivering those commitments and to working in partnership with Yorkshire Housing.”
