

Busy Activities Schedule for Keynetics at The Security Event

1 year ago

The Security Event (TSE), one of the most highly anticipated industry exhibitions, is set to take place at the NEC Birmingham from 30th April to 2nd May. Keynetics is excited to be a part of the event and showcase its latest key management solution, SentriGuard®, on stand 5/H127.

Moreover, the company is involved in a variety of other activities, which expo visitors will find insightful and very relevant to their operations. From key safe and platform demos to on-stage discussions and live key safe attack tests, the Keynetics team is looking forward to joining the industry leaders over the three days of the show.

Key Safe, Platform and App Demos

On Keynetics stand 5/H127, visitors are invited to test SentriGuard key safes, discover how both app and code access works, and learn more about the management platform, including its functionality for managing key safes and user access across multiple sites.

Live Key Safe Attack Tests

SentriGuard® will be attack tested at the Live Testing Lab run by LPCB. Expo visitors are invited to witness physical key safe intrusion attempts by professional forced entry specialists at 10:45 on Tuesday 30th April, 13:15 on Wednesday 1st May and 11:00 on Thursday 2nd May.

These sessions are intended to highlight the importance of security product accreditations, and industry

standards, as well as demonstrate the robustness of Keynetics' SentiGuard system.

Joining Access Control Thought-Leaders at The Forum

Scott Fisher, Founder and CEO of Keynetics and SentiLock, will discuss the latest developments in access control alongside other technology leaders at The Forum organised by the Access Control Executive Brief.

Keynetics will participate in two vertical discussions on 30th April: Access Control for the Industrial Vertical at 11am and Access Control for the Commercial Real Estate Vertical at 14:30.

SSEAs Awards Ceremony

Keynetics is proud to have been nominated for the Security & Safety Entrepreneur Awards in the Market Disruptor of the Year category. Winners will be announced during a reception at The Security Event on 30th April at 1pm. We are honoured that the end-user benefits of our software solutions have been recognised by the jury and look forward to celebrating security sector achievements and excellence alongside other nominees and guests.

Don't miss out!

TSE is a must-visit event that will unite exhibitors and visitors from around the globe. Register for a free pass on The Security Event website and enjoy three days of networking and learn more about the latest industry products and developments.
