

## ISS awarded 5-year contract with Croydon Health Services NHS Trust

1 year ago

**ISS** has proudly announced a new five-year contract with Croydon Health Services NHS Trust, providing a range of FM services.

The contract, which is valued at approximately £45 million over five years, will see ISS take on around 300 staff across 8 sites, providing cleaning, portering, pest control and window cleaning to the south London Trust. ISS management on the contract will be responsible for driving service improvements, including the introduction of specialist service teams managing critical and fast-moving wards, such as the emergency and radiology departments.

ISS will also implement its innovative technology on the contract, which will include our award winning ServicePoint product and sensor technology to create a targeted cleaning approach.

Matthew Kershaw, Chief Executive at Croydon Health Services NHS Trust said: “We are looking forward to our new working partnership with ISS. Their experience in managing services that are vital for our patients and staff, along with their dedication to their employees, is welcomed, and we look forward to the expertise and innovation they will bring to our Trust.”

Donna Brown, Managing Director for Healthcare at ISS UK & Ireland, said: “We are delighted to be starting this new partnership with Croydon Health Services NHS Trust. As a market leader in the healthcare sector, I’m excited to see how we can use our broad experience and global expertise to find new ways of making the Trust even more efficient, creating positive environments for patients and visitors, as well as a safe and happy workplace for the Trust’s clinical staff.”
