

## Enlight Group achieves triple UKAS accreditation

1 year ago

Enlight Group, a growing facilities management company, is proud to announce achieving accreditation to the following UKAS standards:

- ISO 9001:2015 (Quality Management System)
- ISO 14001:2015 (Environmental Management System)
- ISO 45001:2018 (Occupational Health and Safety Management System)

Ahmed Malik, CEO of Enlight Group, said: “This comprehensive accreditation demonstrates Enlight Group’s commitment to delivering exceptional service while prioritising environmental responsibility and employee well-being. It further strengthens our existing accreditations, including Safe Contractor, BICS, Living Wage Employer, and ESGMark.

“Enlight Group is currently in discussions to appoint a chairman and a Non-Executive Director (NED) team. This strategic move will further propel our growth following these significant UKAS accreditations. Additionally, our new website launching in July 2024 will provide a comprehensive view of Enlight Group’s capabilities.

“We sincerely thank our clients and partners for their continued support. We are incredibly optimistic about the future and confident in Enlight Group’s ability to achieve continued success.”
