

Established British retailer shops with PTSG

12 months ago

[Premier Technical Services Group Ltd \(PTSG\)](#) is to deliver high-level decoration services to a well-established British company that operates department stores, supermarkets, banking and financial services as well as other retail-related activities.

The company was founded back in 1864 with the opening of a drapery shop in London's Oxford Street. By the 1930s it was expanding outside London, with the acquisitions of stores in Nottingham, Weston-super-Mare, Southsea and Southampton.

Today, the company operates several "upmarket" brands with a total of 34 department stores, 329 supermarkets and online retailing. In 2023, the early stages of a plan to sell shares were explored but no action was taken.

In this contract, operatives from [PTSG Building Access Specialists Ltd](#) will undertake high-level decoration to buildings within the client's portfolio.

PTSG's specialists are qualified and equipped to carry out the full spectrum of building repair, maintenance and cleaning work for customers in all industry sectors. From carrying out traditional steeplejack services to industrial chimneys, to devising a unique technique for accessing the underside of roofs to protect structures such as sports stadia, aircraft hangars and industrial warehouses, no challenge is too great.
