

## Have yourself a merry little Christmoss

1 year ago

Interior and exterior planting business [phs Greenleaf](#) has added an eco-friendly moss Christmas tree to its festive range – ideal for businesses looking for a more sustainable way to celebrate this year.

The innovative Christmoss Tree™ is handmade in the UK and uses only natural, biodegradable materials, including a sustainably harvested wood tree structure filled with flat moss or reindeer moss.

Each tree is unique and the moss is treated with natural products to give it a lifespan of up to 10 years. The trees can come with lighting and a range of natural decorations, including dried fruits, cinnamon sticks and even moss baubles.

They come in a variety of sizes from 6ft to 10ft and can be single or double-sided or 360 trees. They can also be wall hung for areas with limited floor space.

Stephen Dieppe, Managing Director for phs Greenleaf, said: “The Christmoss Tree™ is a fantastic addition to our range. We always strive to provide more innovative and sustainable Christmas options for our customers because we know how important it is, not only for our planet, but for people too.

“We see firsthand how plants and natural materials promotes a better quality of life for the people using a space, including improved well-being, greater productivity and reduced stress. Ensuring commercial spaces are filled with air purifying, CO2-reducing plants and greenery is at the heart of the business.

“To ensure that we continue to encourage and embrace eco-friendly innovations at phs Greenleaf, sustainability is a permanent agenda point. Green credentials are also part of our supplier tender process to encourage sustainability at every stage of the supply chain.

“We like to stay on top of the latest innovations like the Christmoss Tree™ to ensure every customer has

the opportunity to take a more environmentally-friendly approach.”

[phs Greenleaf](#) has been providing planting and landscaping services to businesses for over 25 years, including indoor and outdoor plants, artificial and live planting, living walls, grounds maintenance and Christmas trees and decorations.

Part of the phs Group, phs Greenleaf supplies over 8,000 customers in a range of sectors with high quality horticultural services, including hospitality and leisure venues, retail spaces, public buildings, commercial premises and even Buckingham Palace.

phs Greenleaf holds a Royal Warrant – the mark of recognition for those who have supplied goods and services to the royal household for at least five years. Since 2010, phs Greenleaf has held a Royal Warrant for the installation and maintenance of plant displays in Buckingham Palace.

As well as supplying and installing everything from potted plants to live trees, phs Greenleaf’s experienced and knowledgeable team will also conduct regular maintenance visits on site to tend to the plants installed.
