

## PTSG to look after nursery stores

1 year ago

Premier Technical Services Group Ltd (PTSG) has been contracted to provide specialist cleaning services for a leading UK-based nursery brand and manufacturer.

The client, which became a retail brand in 1998, supplies prams, pushchairs, baby products, furniture and maternity wear. The initial aim of the company's founders was to bring Italian design to the UK baby buggy market. They started the business with a range of coloured corduroy prams imported from Italy. In 2016, it opened a 5,000-square-foot flagship store in Westfield London.

In this contract, operatives from PTSG Building Access Specialists Ltd will deliver window cleaning nationally for some of the company's 153 UK stores.

PTSG's teams are highly skilled in the use of a range of equipment including rope access/abseiling techniques, BMU/cradle access, MEWPs and ladder work, allowing them to carry out full cleans at even the most challenging sites. Safety is always at the heart of all work and a full risk assessment is always carried out before commencing any project.
