

OCS Secures Contract Extension with Birmingham Airport

2 years ago

OCS is proud to announce a two-year contract extension to continue delivering essential cleaning services at Birmingham Airport.

This extension builds upon a successful five-year partnership established in May 2019. OCS will continue to provide a comprehensive range of cleaning services across the airport, encompassing:

- Terminal cleaning
- Cleaning of various airport buildings
- External area cleaning
- Winter gritting for terminal surroundings
- Washroom hygiene services
- High-level window cleaning

Mark Chambers, Operations Director Airport Services — OCS, said: “We are thrilled to continue our successful partnership with Birmingham Airport. This contract extension reflects our commitment to delivering exceptional services and maintaining a positive working relationship.”

Deane Arnold, Terminal Operations Manager — Birmingham Airport, said: “We are pleased to extend our partnership with OCS. Their consistent service delivery and flexibility have been instrumental in maintaining the high standards we expect at Birmingham Airport. This sustained working relationship ensures that our passengers and facilities continue to benefit from OCS’s expertise.”

The contract extension signifies a commitment to both service excellence and local investment. Having introduced robotics for enhanced efficiency during the initial contract, OCS plans to further expand its

service scope, creating additional employment opportunities within the Birmingham area.
