

Pinnacle team rewarded with prestigious military recognition

2 years ago

A number of colleagues working on [Pinnacle](#)'s Service Families contract have been recognised with a commendation from the Vice Chief of Defence Staff, General Dame Sharon Nesmith.

Conferred twice a year alongside the state honours, commendations are awarded to individuals and teams who have performed exemplary service to the Ministry of Defence.

Ben Leahy, Jolanta Mokrzycka, Ed Rigby, Barry Reynolds, Jas Patel and James Jamieson were awarded the honour for their work on the Afghan Relocations and Assistance Policy (ARAP), alongside colleagues from the Defence Infrastructure Organisation.

Pinnacle has supported the Ministry of Defence in mobilising the programme, with colleagues ensuring Afghan citizens – who supported the UK Government in Afghanistan – are safely moved into surplus military accommodation.

Claire Kober Managing Director, Homes at Pinnacle Group, said: "We're incredibly proud of our team, who have worked so hard on this programme and have truly earned this commendation. Individuals have gone far beyond the call of duty to support these families as they settle into life in the UK. Alongside those mentioned in the citation, recognition is extended to our Afghan Liaison Officers as well as our wider Strategic Estate Management, regional teams and sub-contractor, Pickfords."

Team members are now set to attend a presentation at MOD main building, where they will be thanked in person by General Dame Sharon Nesmith.
