

PTSG to work with student accommodation provider

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to provide specialist cleaning services for one of the UK's leading accommodation providers for students.

Student accommodation in the UK is a significant aspect of university life, influencing students' overall experience and well-being. There are various types of student accommodation available, each with its own features and considerations.

Halls of residence are managed by the university and can be situated on or off campus, providing easy access to university facilities. Alternatively, private halls of residence are managed by private companies but specifically provided for students.

Shared housing is the other main choice for students staying away from home. Students share the rent and the common areas such as kitchens, living rooms and bathrooms. This may be a more cost-effective choice than halls.

In this contract, operatives from [PTSG Building Access Specialists Ltd](#) will deliver specialist window cleaning services at multiple sites. PTSG's teams are highly skilled in the use of a range of equipment including rope access/abseiling techniques, BMU/cradle access, MEWPs and ladder work. This enables them to carry out full cleans at even the most challenging sites.
