

Bidvest Noonan secures key contracts in the Education Sector

1 year ago

Bidvest Noonan has successfully retained and acquired significant contracts within the higher education sector.

The company has extended its contract to provide security and cleaning services for a prominent university in the UK, maintaining a partnership that has spanned over a decade. This retention highlights the long-standing relationship and ongoing collaboration between Bidvest Noonan and the university, which is based in a major urban centre.

Additionally, the company has been awarded a new contract to deliver cleaning services for another leading UK university, also located in a major city. This new partnership expands Bidvest Noonan's involvement in the education sector, adding to its portfolio of academic institutions served.

Collectively, these universities serve nearly 60,000 students across various disciplines. Under these contracts, Bidvest Noonan will provide services to five large campuses. Both institutions are recognised for their academic excellence and research contributions.

"These contracts highlight the trust and confidence that educational institutions place in Bidvest Noonan's services. We have built a very strong portfolio in the higher education sector, and our capabilities and expertise allow us to meet the unique needs of these institutions. The dedication and expertise of our teams have been instrumental in securing these partnerships," said Fintan Connolly, Chief Customer Officer.
