

PTSG is on tap for utilities provider

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist electrical services for the UK's largest listed water company.

United Utilities Group plc (UU) was founded in 1995 as a result of the merger of North-West Water and NORWEB. The group manages the regulated water and wastewater network in North West England, which includes Cumbria, Greater Manchester, Lancashire, Merseyside, most of Cheshire and a small area of Derbyshire, which have a combined population of more than seven million.

The United Utilities Group was the electricity distribution network operator for the North-West until 2010, when its electricity subsidiary was sold to Electricity Northwest. United Utilities' headquarters are in Warrington, England, and the company has more than 5,000 direct employees. Its shares are listed on the London Stock Exchange and it is a constituent the FTSE 100 Index.

In this contract, engineers from [PTSG Electrical Services Ltd](#) will provide a full test and inspection of lightning protection systems at OSEC sites for UU. This ensures compliance with regulations as well as safeguarding buildings and all users in the event of an electrical storm.

PTSG is the UK's leading provider of lightning and surge protection services. Its network of engineers deliver a complete range of services including design and installation, testing and inspection and repairs and maintenance. Ultimately, the Group gives customers complete peace of mind that their assets and people are safe and protected at all times.
