

Sitemark announces £100million in FM procurement contract awards for 2024

2 years ago

[Sitemark](#), a leading provider in Facilities Management (FM) procurement and tender management, is on target to hit its 2024 goal of facilitating £100 million in contract awards. This achievement reflects the value that clients place in Sitemark and the company's growing influence in the FM procurement sector.

With nearly 20 years' experience in FM, Sitemark confidently works across multiple sectors to deliver a seamless Tender and Procurement service. Sitemark's contracts cover sectors such as commercial real estate, higher education, luxury car manufacturing, and professional services.

Jiger Shah, Associate Procurement Manager of Sitemark says, "Our goal at Sitemark is to streamline the procurement process and ensure that our clients receive the best value and highest quality services possible. The substantial contract awards this year are a testament to our thorough approach and the trust we have earned from our clients across various industries."

Sitemark's comprehensive FM Procurement management service helps organisations run a straightforward and transparent tendering process, from planning the initial strategy to implementing the final contract award. The tried and tested methodology ensures efficiency and cost-effectiveness, and lets our clients focus on their core business while Sitemark confidently handles the complexity of FM procurement.

Key Highlights:

- Sitemark facilitates over £100 Million in contract awards demonstrating the scale of Sitemark's procurement process
- Sitemark clients represent a wide range of industries, including Commercial Real Estate, Higher Education, Luxury Car Manufacturing, and Professional Services, reflecting the versatility and

adaptability of their services.

- The unique Sitemark approach brings financial savings, a quality service, and operational efficiency improvements.
