

MMS Facilities Management offers free site surveys as they launch brand new website

2 years ago

MMS Facilities Management is excited to announce the launch of its brand-new website at <https://mmsfacilitiesmanagement.co.uk/> along with its free site survey service. In keeping with their commitment to provide tailored facilities management solutions, this new online platform is designed to provide prospective clients with an intuitive and efficient experience when seeking information, booking a free survey, or learning more about our facilities management (FM) services.

New Website Highlights:

- Free Survey We believe in providing exceptional customer service, which is why we offer complimentary surveys for all our facilities management services – clients can find out what they really need without incurring any charges (T&C apply).
- Streamlined Navigation: Featuring a user-friendly design that makes it easy to access detailed information about our comprehensive services, including maintenance, security, cleaning, and waste management.
- Detailed Service Descriptions: Each page provides in-depth information on all our facilities management services. From routine and preventive maintenance to advanced security solutions and efficient waste management, clients can find everything they need to understand how we can meet their specific needs.
- Meet the Team: The “Meet the Team” section introduces our skilled professionals, highlighting their expertise and dedication to delivering exceptional and thorough facilities management solutions.
- A Client-Centric Approach: We have designed the site to emphasise our commitment to providing tailored

facilities management solutions for various sectors, such as educational—including PBSA Student Accommodation—commercial, residential, and industrial environments. Our goal is to align our services with each client's operational requirements.

"We are thrilled to launch our new website," said Aron Middleton, MD, MMS Facilities Management. "This platform reflects our commitment to providing top-quality Facilities Management solutions and offering an exceptional service with access to free surveys and a bespoke approach to FMS."
