

Sitemark Marks 12 Months as a Key NHS Partner Delivering Trusted FM Consultancy Services

1 year ago

Since September 2023 [Sitemark](#) has been recognised as a verified provider of recycling and waste consultancy services under the NHS Shared Business Services (SBS) Framework. Sitemark's inclusion in the framework represents a key partnership between a trusted consultancy firm and a healthcare giant. As a trusted provider, NHS clients can work with Sitemark's expert team to deliver cost-effective recycling and waste strategies that meet sustainability targets.

With nearly two decades of experience, Sitemark have shown how consultancy services can contribute to a greener and more sustainable future for many of the UK's large public institutions. Its inclusion in the NHS SBS framework is a testament to Sitemark's capabilities and a significant stride towards the NHS achieving its commitment to environmental sustainability, which relies on the effective management of waste, and the efficient recycling of resources.

Sitemark's tailored consultancy services help the NHS streamline their waste management processes, adhere to environmental regulations, and implement effective recycling strategies. The strategy not only reduces the carbon footprint but also creates significant cost savings for the NHS. Given the scale of NHS operations, even small improvements in waste management and recycling practices can have a significant impact.

The NHS is aiming for net-zero carbon emissions by 2040 and Sitemark's expertise is expected to play a crucial role in helping to meet these goals. The partnership between Sitemark and the NHS highlights the potential for verified consultancy services to be catalysts for positive change in one of the nation's most

vital sectors. Together, we're paving the way for a more sustainable healthcare future.
