

World's third-largest retailer shops with PTSG

1 year ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist roofing works for one of its large retail clients.

The company, an American multi-national corporation, is the third-largest retailer in the world (as of 2021). While its headquarters are in the north-west of the USA, it has 879 warehouses worldwide, with 29 in the UK. When its first warehouse opened in China in 2019, it attracted so many customers that it had to close after only a few hours.

In this contract, operatives from [PTSG Building Access Specialists Ltd](#) will deliver roof encapsulation work. Asbestos roof encapsulation is a specialised procedure aimed at managing the risks associated with asbestos-containing roofing materials without resorting to their removal. This method involves the application of a specially formulated coating directly onto the asbestos-containing surfaces.

PTSG is one of Europe's leading providers of specialist services, working on buildings in all sectors, inside and out, high and low, to keep them safe, clean and compliant in all areas. Its teams form close collaborative working relationships to become extensions of its clients, from principal contractors in construction and FM to public sector bodies and end-user consumer brands.
