

AEMT welcomes eight industry leaders as new members

2 years ago

The Association of Electrical and Mechanical Trades (AEMT) is delighted to announce the addition of eight reputable companies to its membership roster. These industry leaders bring a wealth of expertise in electrical and mechanical engineering, further strengthening the association's commitment to excellence, innovation, and professional collaboration.

The organisation is therefore proud to welcome the following new members:

Innomotics Large Drives and Motors Limited

Innomotics is a leader in the design and manufacturing of high-performance large drives and motors. With a strong focus on innovation and quality, their products serve a wide range of industries, including energy, mining, and industrial automation. Their membership in AEMT is expected to contribute to the association's mission of promoting advanced engineering practices. For more information visit the website: <https://www.innomotics.com>

Maintain Reliability Ltd

Specialising in predictive maintenance and reliability engineering, Maintain Reliability Ltd offers cutting-edge solutions that help industries optimise the performance of their assets. Their expertise in condition monitoring and failure analysis will bring valuable insights to the AEMT community, particularly in the areas of efficiency and sustainability. For more information visit the website: <https://www.maintainreliability.co.uk>

PT. Mesindo Teknnesia

Based in Indonesia, PT. Mesindo Tekninesia provides comprehensive repair and maintenance services for a variety of industrial machinery. Their commitment to delivering high-quality services across Southeast Asia aligns perfectly with AEMT's global standards for excellence and reliability. For more information visit the website: <https://www.mesindotekninesia.com>

Power Energy Gulf for Environmental Services

Located in the Gulf region, Power Energy Gulf for Environmental Services specializes in environmental engineering and sustainable energy solutions. Their focus on integrating green technologies into industrial processes is a vital addition to AEMT's growing emphasis on sustainability within the electrical and mechanical trades. For more information visit the website: <https://www.power-energy.us/>

The Electric Materials Company

With a rich history in the production of copper and copper-alloy components, The Electric Materials Company serves a diverse array of industries, including power generation and

transportation. Their membership in AEMT will enhance the association's capacity to support members involved in advanced materials and component manufacturing. For more information visit the website: <https://www.elecmat.com/>

Euro-Tech Asia International SDN BHD

Operating out of Malaysia, Euro-Tech Asia International SDN BHD is a key player in the supply and maintenance of industrial machinery across Asia. Their extensive experience in providing engineering solutions to a range of industries makes them a valuable partner in AEMT's mission to foster global collaboration. For more information visit the website: <https://www.eutechinternational.com>

Hayward Tyler Ltd

Hayward Tyler Ltd is an established leader in the design, manufacturing, and service of performance-critical motors and pumps. With over 200 years of engineering expertise, their commitment to innovation and excellence will significantly contribute to AEMT's efforts to promote best practices in the industry. For more information visit the website: <https://www.HaywardTyler.com>

Sensor-Works

A pioneer in industrial IoT and sensor technology, Sensor-Works offers advanced monitoring solutions that enhance asset reliability and operational efficiency. Their focus on integrating smart technologies into industrial applications aligns with AEMT's vision for the future of electrical and mechanical engineering. For more information visit the website: <https://www.sensor-works.com/>

These eight companies bring diverse expertise and innovative solutions to the AEMT, further enriching the association's ability to support its members and drive progress across the electrical and mechanical trades. The addition of these organisations reinforces AEMT's commitment to advancing industry standards, fostering global collaboration, and promoting sustainability.

Commenting on these latest additions to the Association's membership, Thomas Marks, AEMT Secretary and General Manager, said: "It is extremely pleasing to see that the business benefits associated with

AEMT membership are valued by a growing number of repair and maintenance related businesses. I am therefore delighted to welcome these companies into the association and look forward to providing them with all the support now available to them.”
