

Atlas London secures contract with Mimecast

2 years ago

[Atlas London](#) has been appointed by Mimecast to provide cleaning and associated services at its headquarters at 1 Finsbury Avenue in London.

Mimecast is a leading global cybersecurity company, which protects over 42,000 businesses globally through its AI-powered platform. Their prestigious London offices provide a fantastic work environment including meeting spaces, collaborative and breakout areas, conference facilities, kitchens, and a bar.

Mandy Truong, Facilities Manager, Mimecast said: “Atlas London has provided us with a cleaning solution which delivers best in class standards combined with optimum productivity. The cleaning team is an integral part of the Mimecast organisation, supporting the flexibility of our hybrid working environment and our ESG credentials.”

Martin Fitch, Managing Director Atlas London commented: “We are delighted to be supporting Mimecast and their business objectives. Our well trained and motivated team is using the latest equipment and cleaning methodologies to deliver enhanced standards, improved sustainability and the best value for money.”
