

PTSG welcomes Fire Door Safety Week

10 months ago

As one of the UK's leading providers of fire solutions to customers in a wide variety of industry sectors, [Premier Technical Services Group Ltd \(PTSG\)](#) welcomes and celebrates Fire Door Safety Week, which take place this week (23-27 September).

Owned and managed by the British Woodworking Federation (BWF), Fire Door Safety Week aims to raise awareness of the critical importance of fire doors in saving lives and protecting buildings of all kinds in the event of a fire.

PTSG works with building owners and managers to reduce their risk by providing [specialist fire safety equipment and services](#). The Group employs LPCB, BM TRADA and Firas certified experts who specialise in the installation, maintenance and survey of internal timber doors and front entrance door-sets. They provide assurance that every aspect of a building's fire doors is functioning in accordance with fire regulations.

PTSG's fire door service

PTSG's comprehensive fire door inspection service has been designed to meet third-party certification standards. This provides assurance and evidence that fire doors perform as they should in the event of a fire – and, crucially, ensures customers fulfil their legal obligations by complying with regulations.

PTSG works with clients from all sectors; this includes working extensively with social housing providers and other public sector organisations to deliver fire door services as well as a range of other passive fire services to ensure social housing residents are as safe as possible in their homes.

The Fire Door Safety Week Toolkit

At firedoorsafetyweek.co.uk is 'The Toolkit' – a collection of resources to help check for faulty doors and poor installation, including the 5 Step Fire Door Check. Plus, there are resources to help people to get involved with the campaign – from poster downloads to sharing short campaign films.
