

## Alpine Fire strengthens market-leading position with the acquisition of DAS Fire

9 months ago

The UK's Leading ESG fire suppression company, [Alpine Fire](#), has announced the acquisition of DAS Fire.

Hampshire based DAS Fire, is a market leader in supplying fire detection and suppression solutions to the data centre sector across the UK and Ireland, offering full design, installation and maintenance to this complex, high growth sector.

This is the first acquisition since Alpine attracted private equity investment from WestBridge in 2022 and is a significant step in the delivery of its ambitious growth plans.

Steven Nanda, Chief Executive Officer of Alpine, commented:

"Since our secondary management buyout in December 2022, we have continued to be extremely successful in driving organic growth across our core markets. This acquisition enables us to accelerate our diversification strategy into sectors that complement our own.

"I am incredibly excited to have DAS join the team, we have added further expertise and capability in a unique sector which we identified as a key growth area, whilst also providing us with a fantastic opportunity to supply our customers an improved and more comprehensive offer"

Stuart Parker, Managing Director of DAS commented:

"It's an exciting time to join the progressive team at Alpine and combine the extensive experience of both of our organisations to offer expertly designed fire detection and suppression systems to our customers in the complex sectors we specialise in.

"We will continue to focus on both our customers and colleagues whilst looking forward to the benefits that come with being part of a larger organisation."
