

Avrenim announces contract award to provide Hard FM services to the Christie NHS Trust

1 year ago

Avrenim have been awarded a 7 year Hard FM contract with the prestigious “The Christie NHS Foundation Trust” to manage and provide built environment services to their new hospital based in Macclesfield.

The Christie at Macclesfield is a £26 million development, is the third in a network of local Christie radiotherapy centres where patients can access first-class radiotherapy treatments from Christie experts, but much closer to home. The other centres are in Oldham and Salford. The hospital provides 12,500 radiotherapy & 46,000 patient appointments a year.

The contract includes providing planned and reactive maintenance to the building and plant, grounds maintenance, minor works & refurbishment, helpdesk services and management. The Service is due to commence on 1st November 2024.

John Newberry, Avrenim Chairman, stated “Avrenim has a long track record in delivering Hard FM services into the NHS and there is nothing more satisfying than welcoming a new NHS customer onto our schedule, especially one as prestigious as The Christie NHS FT. I and the Avrenim FM team look forward to developing the long-term partnership with The Christie with our focus being to support the delivery of critical cancer treatments to the people of Cheshire and the Peak District by ensuring their environment and building are fully available and welcoming.”

Alex Beedle, The Christie Head of Estates & Facilities, stated “I welcome Avrenim to the Trust as a vital supplier of Hard FM services and look forward to them building their long term partnership with the Trust in

the delivery of these vital services in Macclesfield”
